New student orientation activities will begin online in August with a Seattle Campus Orientation asynchronous online course for students in all programs. The Seattle campus is also planning on hosting Welcome Days on campus in early September for you to get your student ID card and get familiar with the physical space. A variety of orientation sessions will be offered around the start of your first term to ensure you're set up for success.

Welcome Days

Near the start of your first term, you will receive information about Welcome Days to help you get physically oriented to the campus. Campus Ambassadors will be available to answer questions from the student perspective, and you will be able to retrieve essential campus access items, including your Student ID. Students are required to wear their Student ID at all times when on campus, so you must pick it up before you attend your first on-ground class. You will receive information on how to submit your Husky ID via your online Seattle Campus orientation course. Days and hours for Welcome Days will be announced a few weeks prior to the start of the term.

The campus makes every effort to notify eligible students when a position is available.

What Are the Student Organizations at the Seattle Campus?

The campus supports student-led affinity groups. All students are eligible to propose and run a group, request funding, and host events on campus. Groups are supported via regular group fairs, campus-wide communication, and participation in campus events. In addition, the community host regular events on and off campus for the Seattle campus student body. Students are encouraged to share their ideas for events and activities with the campus ambassadors (mailto:seattlecampusambassador@northeastern.edu) who make up the Student Leader Cohort and to apply to be a student ambassador.
