Academic Programs

Pathway to Tech

Align Master of Science in Computer Science (https://siliconvalley.northeastern.edu/academic_program/align-master-of-science-in-computer-science/)

Pivot into a career in tech, or build on an existing career with a new set of skills — no matter what you studied as an undergraduate. The Align program, from the Khoury College of Computer Sciences, pairs bridge courses with our standard CS academic curriculum and elective specializations. Learn more. (https://siliconvalley.northeastern.edu/academic_program/align-master-of-science-in-computer-science/)

Align Master of Science in Data Science (https://siliconvalley.northeastern.edu/academic_program/align-masters-of-science-in-data-science/)

Be at the forefront of the rapidly-expanding field of data science, or bring a data specialization into your existing career. Students from any undergraduate major and professional path take a series of bridge courses followed by our standard DS curriculum in the Align program, from the Khoury College of Computer Sciences and the College of Engineering. Learn more. (https://siliconvalley.northeastern.edu/academic_program/align-masters-of-science-in-data-science/)

Master of Science in Information Systems — Bridge (https://siliconvalley.northeastern.edu/academic_program/master-of-science-in-information-systems-is-bridge/)

Open to students of any undergraduate major, the Information Systems Bridge program from the College of Engineering provides a pathway into several concentrations: general information systems, user experience, big data systems and analytics, smart contracts, or intelligent systems. Students take bridge courses and then enter the standard IS curriculum. Learn more. (https://siliconvalley.northeastern.edu/academic_program/master-of-science-in-information-systems-is-bridge/)

Master of Professional Studies in Analytics (https://siliconvalley.northeastern.edu/academic_program/master-professional-studies-analytics/)

The program prepares students with a deep understanding of the mechanics of working with data (i.e., its collection, modeling, and structuring) along with the capacity to identify and communicate data-driven insights that ultimately influence decisions. Learn more. (https://siliconvalley.northeastern.edu/academic_program/master-professional-studies-analytics/)

Computing and Engineering

Master of Science in Computer Science (https://siliconvalley.northeastern.edu/academic_program/master-science-computer-science/)

The Master of Science in Computer Science degree, from the Khoury College of Computer Sciences, is designed for experienced professionals seeking to enhance their knowledge and expand their technology leadership. The program combines both computing and important application domains—enabling you to increase your broad-based knowledge in the field while focusing on one of three featured specializations: software engineering, artificial intelligence or human-computer interaction. Learn more. (https://siliconvalley.northeastern.edu/academic_program/master-science-computer-science/)

Master of Science in Data Science (https://siliconvalley.northeastern.edu/academic_program/masters-of-science-in-data-science/)

An extensive core curriculum—designed jointly by Khoury College of Computer Sciences and the College of Engineering faculty—enables you to develop depth in computational modeling, data collection and integration, data storage and retrieval, data processing, modeling and analytics, and visualization. Learn more. (https://siliconvalley.northeastern.edu/academic_program/masters-of-science-in-data-science/)

Master of Science in Artificial Intelligence (https://siliconvalley.northeastern.edu/academic_program/master-of-science-in-artificial-intelligence/)

Learn to design, develop, and maintain artificial intelligence (AI) systems that change the world, from reducing cancer deaths and unregulated pharmaceuticals to expanding job access to rural workers and incorporating indigenous languages into automatic speech recognition. The Master of Science in Artificial Intelligence program prepares professionals and recent graduates with technical or mathematical training for a leadership role in AI. Learn more. (https://siliconvalley.northeastern.edu/academic_program/master-of-science-in-artificial-intelligence/)

Master of Science in Information Systems (https://siliconvalley.northeastern.edu/academic_program/master-of-science-in-information-systems/)

In the Master of Science in Information Systems program, you will embark on an IT leadership pathway as a more evolved, dynamic software engineer. You will design groundbreaking software solutions that fit within the complexities of the business world and solve the humanistic needs of the people who use them. Learn more. (https://siliconvalley.northeastern.edu/academic_program/master-of-science-in-information-systems/)

Leadership & Management

Master of Science in Project Management (https://siliconvalley.northeastern.edu/academic_program/project-management-2/)

Without skilled project managers, companies struggle to deliver projects on time, on a budget, and according to specifications. From inception to completion, you'll learn how to manage every step in the process. Our Master of Science in Project Management will prepare you to own that role across a range of industries. Learn more. (https://siliconvalley.northeastern.edu/academic_program/project-management-2/)
