

Scholarship Opportunities for Master's Students.

Khoury College Scholarships

The scholarships listed below are awarded by Khoury College to students who meet the eligibility criteria.

Align Scholars Program

Students admitted to an Align program at Khoury College must complete the scholarship question on the admissions application to be considered for our Align Scholars program. Students are notified of awards by the first day of the semester. Align Scholars are selected on a semester-by-semester basis; students who defer their start date will lose their scholarship and need to reapply to be considered again. Available scholarships are limited and will be considered case by case.

Align Scholars eligibility requirements:

- Incoming student to any Khoury Align program
- Domestic student (US citizen or permanent resident)
- Students who identify as underrepresented in technology and those with high financial need (verified by FAFSA) will be prioritized
- Must maintain a 3.0 GPA and remain in good academic standing while in the Align program

Women in CyberSecurity (WiCyS) scholarships

Northeastern University is excited to offer four WiCyS members a 25% scholarship toward earning a master's in cybersecurity from Khoury College. Our MS in Cybersecurity programs prepare students to address evolving digital threats across key industries. The direct-entry MS in Cybersecurity is for students with prior programming experience, and our Align MS is designed for students from any undergraduate background (no prior tech experience required). Both pathways equip

graduates to analyze risks, strengthen security systems, and support organizational protection efforts.

Offered at Boston and Arlington campuses; for more information, contact Madison Barton.

Additional scholarship opportunities

Khoury College may occasionally receive scholarship funding from private donors, who often set the criteria for the recipients of the funds. Generally, there is no application required for this funding. Students who meet the criteria for these awards will be notified before the start of the semester.

University-supported fellowships and scholarships

Double Husky Scholarship

The Double Husky Scholarship helps Northeastern alumni finance their graduate education by providing a tuition discount up to 25% on eligible programs.

Learn more about the scholarship →

Yellow Ribbon Scholarship

Sponsored by the federal government, Yellow Ribbon Scholarships cover most or all tuition and other fees for veterans.

Learn more about the scholarship →

Parent and Family Scholarship

This scholarship provides tuition discounts up to 25% for parents and siblings of full-time Northeastern undergraduate day students.

Scholarship opportunities for cybersecurity students

Northeastern University is designated as a National Center of Academic Excellence in Cyber Education (Cyber Defense and Research) and in Cyber Operations by the National Security Agency and the Department of Homeland Security. As a result, there are multiple scholarship opportunities for students in the cybersecurity master's program.

Interested? Contact Guevara Noubir and include your resume. All application materials and letters of recommendation will also be sent to him.

Cyber Scholarship Program

The Department of Defense runs the Cyber Scholarship Program, where selected Cyber Scholars receive full scholarships in return for one year of service to the Department of Defense upon graduation for each year or partial year the scholarship was received. During the scholarship program, you'll receive hands-on cybersecurity training in addition to your graduate studies through internships and other learning opportunities.

Federal Cyber Service Grant

Northeastern University has received a Federal Cyber Service grant from the National Science Foundation to educate graduate and undergraduate students in information assurance and cybersecurity. Participation in the scholarship program is limited to two years for master's students.

You may receive:

- Annual academic stipend of $34,000
- Full tuition scholarship while in school
- Coverage of health fee, up to $2,000 per year, and all required activity fees
- Two years of employment with a federal agency
- Travel funds to attend information assurance conferences and activities

- Opportunities to mentor undergraduates participating in the program

University-supported partner organization scholarships

Northeastern University partners with select professional organizations to support access to graduate education through university-supported scholarship opportunities.

Active members of the following partner organizations are eligible to receive a 5% scholarship applicable to any Northeastern University graduate program or college:

- National Society of Black Engineers (NSBE)
- Society of Hispanic Professional Engineers (SHPE)
- American Indian Science and Engineering Society (AISES)

Eligibility requirements

- No separate scholarship application is required
- Must be an active organization member
- Upload proof of membership on the graduate application

*Membership will be verified directly with the respective organization.

Scholarships not affiliated with Northeastern or Khoury College

Fostering diverse community scholarships

- AISES (American Indian Science and Engineering Society)
- Hispanic Scholarship Fund
- Diversity in Data Science Scholarship
