PROGRAM OBJECTIVES

Prepare for success

Develop expertise across three breadth areas: systems and software, theory and security, and artificial intelligence and data science. You'll choose from a range of electives to tailor your program to your interests.

Advance your career

Prepare for more complex roles, research, or specialized positions with your current company—or take part in experiential co-op and internship opportunities with one of our 700+ partner companies.

Make an impact

Contribute to the dynamic field of CS with innovative project work across industries.

Increase your earning potential

Increase your earning potential with a degree from Northeastern, an R1 research institution.

BREAK INTO THE INDUSTRY

No experience? No problem.

You don't need a background in tech to have a future in it. In as little as 2.5 years, non-majors can earn a master's degree in computer science with our Align program. All you need is a bachelor's degree in any discipline, drive, and a fresh perspective.
